Diane M. Sugimura, Director

**CITY OF SEATTLE
ANALYSIS AND DECISION OF THE DIRECTOR
OF PLANNING AND DEVELOPMENT**

Application Number: 2307454
Applicant Name: Terry Fallon for Stepping Stone Development
Address of Proposal: 2205 S Atlantic St

SUMMARY OF PROPOSED ACTION

Master Use Permit to subdivide one (1) parcel into two (2) unit lots. This subdivision of property is only for the purpose of allowing sale or lease of the unit lots. Development standards will be applied to the original parcel and not to each of the new unit lots. The construction of townhouses has been issued under building permit #737993 (Project #2304183).

The following approval is required:

Short Subdivision - To subdivide one existing parcel into two unit lots pursuant to Seattle Municipal Code (SMC) 23.24.040 and 23.24.045

SEPA DETERMINATION: ☒ Exempt ☐ DNS ☐ MDNS ☐ EIS

☐ DNS with conditions

☐ DNS involving non-exempt grading or demolition, or
involving another agency with jurisdiction

BACKGROUND DATA

Site Description

The lot area for the subject property is approximately 3,998.4 square feet and is zoned Multi-family Residential Lowrise Duplex/Triplex (LDT). The lot has approximately 61 feet of street frontage along 22nd Ave S and 64 feet along S Atlantic St. Twenty-second (22nd) Ave S at this location is designated as a street with curbs, gutters, and sidewalks on either sides of the street pavement. There is no mapped or observed City of Seattle designated Environmentally Critical Area (ECA) on the site.

Proposal Description

The applicant proposes to short subdivide one parcel into two (2) unit lots. Proposed unit lot parcel sizes are: A) 2,088.4 square feet and B) 1,910.0 square feet. DPD Project Number 2304183 to establish use and construct one two (2) -unit townhouses with attached garages has been approved at the time of this decision. Vehicle access for the units is from 22nd Av S.

Public Comment

During the comment period, which ended on March 11, 2004, no written comment letters were received.

ANALYSIS - SHORT SUBDIVISION

Pursuant to SMC 23.24.040, no short subdivision shall be approved unless all of the following facts and conditions are found to exist. The findings, which follow, are based upon information provided by the applicant; review of access, drainage and zoning within the Department of Planning and Development (DPD), review from Seattle Public Utilities, Seattle Fire Department and Seattle City Light, and review by the Land Use Planner.

1. Conformance to the applicable Land Use Code provisions;

The existing parent lot subject to this subdivision conforms to all development standards of the LDT zone. The parent lot configuration provides adequate buildable area to meet applicable density, setbacks, lot coverage requirements and other land use code development standards. The unit lots proposed by this subdivision conform to the standards for unit lot subdivisions (SMC 23.24.045) and other code provisions applicable to unit lot subdivisions.

2. Adequacy of access for vehicles, utilities and fire protection as provided in Section 23.53.005;

Each of the proposed unit lots will have adequate access for vehicles, utilities and fire protection. The Seattle Fire Department has reviewed and approved this proposal for adequacy of access for emergency vehicles.

Seattle City Light provides electrical service to the subject property and has indicated an easement is required. The easement identified in the Seattle City Light memorandum, dated February 26, 2004, and "Exhibit "A" TO SHORT PLAT NO 2307454, EASEMENT (Overhead and Underground) P.M. #240409-2-010 " shall be included on the final plat prior to recording.

3. *Adequacy of water supply, sanitary sewage disposal, and drainage;*

Sanitary Sewer: There is a 12-inch public sanitary sewer (PSS) located in 22nd Ave S that has extended a sidesewer stub to the westerly property line of the proposed Short Plat. This mainline was originally constructed as a combined sewer, and as such, there are likely to be downspouts and area drains still connected to what is now considered, for purposes of redevelopment and new construction, to be a sanitary sewer.

Drainage: As noted above, this area has been separated with the construction of a 12-inch public storm drain (PSD) at the down slope intersection between S Massachusetts St and 22nd Ave S. This mainline discharges to a Designated Receiving Water.

Seattle Public Utilities reviewed the unit lot subdivision application and approved a Water Availability Certificate, No. 2004-0168 on February 19, 2004. All conditions on the certificate must be met prior to receiving water service.

4. *Whether the public use and interests are served by permitting the proposed division of land;*

The proposed unit lot subdivision meets the minimum provisions of the Seattle Land Use Code. The proposal meets all applicable criteria for approval of a short plat as discussed in this analysis and decision. The public use and interests are served by permitting the proposed division of land.

5. *Conformance to the applicable provisions of SMC Section 25.09.240, short subdivision and subdivisions in environmentally critical areas;*

There is no mapped or observed City of Seattle Environmentally Critical Area on the proposal site.

6. *Is designed to maximize the retention of existing trees;*

Not applicable, as the development of the subject site is permitted by approval of the associated building permit.

7. *Conformance to the provisions of Section 23.24.045, Unit lot subdivisions, when the short subdivision is for the purpose of creating separate lots of record for the construction and/or transfer of title of townhouses, cottage housing, clustered housing, or single family housing.*

Section 23.24.045 of the Seattle Municipal Code provides that under certain circumstances some types of parcels may be created that do not individually meet the zoning requirements for lot size, setbacks, density, and structure width and depth. These are called unit lot subdivisions and may be permitted as long as the development as a whole meets development standards. However, as a result of this subdivision, development on the individual lots may be non-conforming. To assure that future owners have constructive notice that additional development may be limited due to non-conformities; the following statement shall be required to be included as a note on the final short subdivision:

“The unit lots shown on this site are not separate buildable lots. Additional development on any individual unit lot in this subdivision may be limited as a result of the application of development standards to the parent lot pursuant to applicable provisions of the Seattle Land Use Code, Chapter 23 of the Seattle Municipal Code.”

DECISION - SHORT SUBDIVISION

The proposed Short Subdivision is **CONDITIONALLY GRANTED**.

CONDITIONS - SHORT SUBDIVISION

Conditions of Approval Prior to Recording

The owner(s) and responsible party(s) shall:

1. Provide final recording forms and fees. Have the final recording documents prepared by or under the supervision of a Washington State licensed land surveyor. Each lot, parcel or tract created by the short subdivision shall be surveyed in the field and all property corners set in conformance with appropriate State statute. The property corners set shall be identified on the plat, as well as all easements shall be shown. A licensed surveyor shall stamp the short plat drawings.
2. The Seattle City Light easement described in the Seattle City Light memorandum dated February 26, 2004, and “Exhibit “A” TO SHORT PLAT NO 2307454, EASEMENT (Overhead and Underground) P.M. #240409-2-010 ” shall be included on the final plat prior to recording.
3. Insert the following on the face of the plat: *“The unit lots shown on this site are not separate buildable lots. Additional development on any individual unit lot in this subdivision may be limited as a result of the application of development standards to the parent lot pursuant to applicable provisions of the Seattle Land Use Code, Chapter 23 of the Seattle Municipal Code.”*

4. Provide a joint maintenance and responsibility agreement for maintenance and use of shared walls on property lines and all ingress, egress, utility, and pedestrian easements.
